DATASHEET

WORK TEC 140+WAIST TEC

The ergonomic four-point harness, consisting of the WORK TEC 140 and WAIST TEC models, is designed for restraint, positioning and fall arrest systems and offers a wide range of applications for working at height.

It has a sternal fall arrest lanyard made of light metal and a dorsal fall arrest lanyard made of steel. The durable Easy-Ring closure system on the chest is intuitive to use - even when wearing gloves. The side EN 358 fall arrest eyelets can be rotated outwards if required and folded away when not in use to maintain freedom of movement. An additional restraint point on the back is marked "R" and is intended exclusively for restraint systems.

Padded, pre-shaped shoulder straps and a breathable mesh material in the back area ensure a high level of comfort. Two HOOK REST loops on the straps, two material holders and quick-opening leg loops with insertion indicator round off the features.

Maximum working load: 140 kg.

FEATURES

Colour:	Orange, Black
Attachment points:	Dorsal steel attachment point, Sternal aluminium attachment point
Hand wash:	40 °C
Maximum lifetime:	10 years
Minimum hip size:	60 cm
Maximum hip size:	105 cm
Minimum leg size:	50 cm
Maximum leg size:	70 cm
Minimum temperature:	-35 °C
Maximum temperature:	40 °C
Padding:	Removeable shoulder paddings, Back padding
Buckles:	stick_buckle, click_buckle
Adjusting buckles:	Adjusting buckles legs, Adjusting buckles shoulders

DIMENSIONS

Size:	S-M
