Standards: EN 361:2002

Net weight: 0.90 kg

Gross weight: 0.90 kg

DATASHEET

WORK TEC

This ergonomic harness with two attachment points is ideal for suspended work and for use with fall arrest systems - especially on flat surfaces or surfaces inclined up to 30°.

It has a chest tie-in point made from reinforced straps and a back tie-in point made from steel. The innovative "twist buckle" closure system on the chest offers an anti-release function for added safety. Padded, adjustable straps with self-locking buckles prevent friction on the neck and ensure a high level of comfort.

Two horizontal loops on the shoulder straps are used to attach a HOOK REST mount. The breathable hip belt and the padded leg loops with self-locking buckles offer comfort even during longer suspended work. Two additional material carriers round off the equipment.

FEATURES

Colour:	Black, Orange
Attachment points:	Sternal polyester attachment point, Dorsal steel attachment point
Hand wash:	40 °C
Maximum lifetime:	12 years
Minimum body height:	170 cm
Maximum body height:	195 cm
Minimum hip size:	75 cm
Maximum hip size:	125 cm
Minimum leg size:	60 cm
Maximum leg size:	80 cm
Minimum temperature:	-20 °C
Maximum temperature:	60 °C
Padding:	Back padding
Buckles:	stick_buckle
Adjusting buckles:	Adjusting buckles shoulders, Adjusting buckles legs

DIMENSIONS

Size:	L-XL
